And now France is afflicted with the disease known in this country as "The New Freedom."

President Wilson is reported to be mrging a law to put small business on equality with ldg business. What a practical business head he has, to be sure:

If all the dagtax laws that have been introduced by the new legislators at Frankfort are passed, a bob-tailed mongrel will become as expensive a luxnry as a six-eylinder tonring car,-Carlisle Mer-

The great State of New York , realizing the valne of visualization in education, will lend this year fully 200,000 lantern slides. No charge is made for their use, but a condition is made that they shall be used only for instruction. A catalogue of subjects and slides is prepared, and sent upon request, to any school official in the State of New York,

The procession of working children in America, if placed twelve feet apart in single tile, would reach from San Francisco to Boston and thence to New York. To shorten the procession until it dwindles and disappears, the National Child Labor Committee says it needs to have not 7,500 members but 10,000, or one for each half mile of those ehildren.

The predictions made by representatives o American printing establishments before the Ways and Means Committee, during the Tariff hearings. are being speedily fulfilled. A representative of the printing and lithographic tirm of Hudson Scott & Sons, Carlisle, England, is now on a business tom in America and was recently in Boston, seeking orders for printing.

An eminent Ohia manufacturer writes a prediction to Leslie's which we place on record for the benefit of the thoughtful and patient reader. He says: "I want to be on record as predicting that the buying and consmning public will never know that a reduction in the tariff has taken place, but the manufacturers will, and so will their employes before the end of 1914."

The award of \$5,000,000 increase in the wages of 100,000 trainmen in the East means that the interest on \$120,000,000 shall be spent not on improved service for the public but on the employes. This might be very well if the roads were permitted to earn the money by adequate charges for the service rendered, but that is a horse of another color. The particular railroads involved in the decision have invested \$2,000,000,000 more, and have earned \$8,000,000 less during the three years since they were forbidden to advance rates, and have been compelled to increase expenses.

HOW ABOUT THIS?

Many of Senator J. B. Hiles' friends are mrging him to make the race for Congress in the Ninth District.-Falmouth Outlook.

THE OLD AND THE NEW BOY.

Where are all the boys who used to play "fox and hounds' and other healthful games"' asked a eitizen yesterday. In answering his own question he said: "Go to the poolrooms and other loafing places and you will find them. "-Owensboro Mes-

LONG LIFE.

Sir John Lubbock, the scientist, has shown how insects may live if preserved from accident and harm of all kinds. The greatest age attained by an insect, as far as known, was that reached by a queen ant, which lived until August 8, 1888, when she was nearly fifteen year old. Another queen of the same species died after a life of thirteen years.

AS TO KENTUCKY LEMONS.

It is bruited abroad that the Hon, James Kehoe has a one and one-half pound lemon, which was presented to him by a Mason County farmer who grew the fruit and thirteen others like it.

Perhaps, but the only kind of lemons that men in public life expect to get from their constituents in Kentucky are the figurative variety. They grow abundantly all over the State and are handed to someone every now and then. In fact the man in public life who does not fear that his constituents are not saving them up in July to hand him in November is exceptionally fortunate.-Frankfort State Journal.

BEVERIDGE NOW ONLY A HOODOO.

Former Senator Beveridge is an eloquent orator and plansible phrase monger, as he demonstrated at the Ohio Bull Moose convention. But the principal effect of his disruptive propaganda in 1912 was to make his adopted State of Indiana solidly Democratic; and now his party in Hoosierdom is going to pieces. In coming to his native State of Ohio, his efforts are in effect simply an aid in perpetuating Democratic minority rule. It is a gradual realization of this fact which is the chief reason for the disintegration of the third party and the getting together of old-time political comrades, Walter Brown and James R. Garfield to the contrary notwithstanding .- Portsmouth Blade.

'ABE MARTIN' ON ADVERTISING.

In the February American Magazine, "Abo Martin," the Indiann philosopher, makes the following remarks on

"What's become o' th' ole-time merclants that used set n tubful o' dried apples nu' a keg o' mackerel i front of his store an' then go t' sleep?

Ever' feller that don't advertiso hain't n fool, lost very few fools ndvertiso.

"The feller that don't know how to advertise is about as bad as th' feller that don't believe in it.

"Folks are allus auxions t' see somebuddy they-ve read so much about, an' they'd be just as crazy t' see a clothes wringer or nuything else under the same circumstances."

MIGHT BE A "TANGO COCKTAIL."

"A well-known Nieholas County man tells this ane: He was at a Lexington hotel a year or so ago. Slept rather late, rang for a bell boy and said: Bring me a Conrier-dournal and a Carlisle Merenry,' Presently "Front" returned and said: Boss, heah is de Curus-Journal, but de bahkeeper said he didn't know how to mix no seeh drink as dat other thing what you wanted."

THE FIRST KENTUCKY HOME.

At last a dream is realized. The home of the Governors of Kentucky ablaze with light and abounding in hospitality has swnng wide its doors to Kentuckians and the stranger within the gates. For a long time it looked as if the new Mansion appropriation would never be passed and that eventually Kentucky Governors who did not wish to live in tubs like Diogenes, or in tepees like the

Indians, must live in hotels, At last we have a Mansion—and it is some mansion as Homer would say—and Frankfort heaves a sigh of relief and contentment, for Frankfort more than any city in Kentucky, felt the Immilia- MANAGER, tion of the long delay in properly housing the Governor.-Frankfort Journal.

THE SITUATION AT FRANKFORT.

The Evening Post has more than once been sadly KET. disappointed in a Kentucky Legislature that seem ed to start well, but we are more saugnine than usual concerning this Legislature. The House undoubtedly has in Mr. Terrell a Speaker of capacity, experience and integrily, and Mr. McDermott is of the same type as presiding officer of the Senate. Many of the new men in both House and Senate have evinced an earnest desire to do something for the State worth remembering. If the old labby is at Frankforl it has not yet showed its hand, but the members of the Legislature should remember that it was puldicity that broke the power of the lobby in the last Legislature.

HAVING A GOOD TIME WHILE

The negligence of Secretary of State Creeclins in of lexiogton, basis Hall, which covers a sell this very desirable property, and failing to perform his official duty, in properly advertising the sulmission of the constitutional larged on the foundation of the amendments, will prove very costly to the State, and has brought down strong censure from every section on that official. While the Secretary of State is nomily the "goat," every other member of the State administration on Capitol Square, should come in for their part of the Idame. Every State ling, the famous veteran showman. Il official seemed to be ignorant of the plain pravisions of the Constitution, as to submitting amend- they were school boys, they ran away ments to the people. It looks to us that not only the Creeclins, but a number of other members of Barmon & Bailey's circus and many the "official family" will land in the political scrap-heap by reason of their being asleep on the follows: job. It will take some expert figuring to bring the State out of deld under the present tax laws,

The meaning of the world sabotage is not generally understood by the average reader and we have endeavored to obtain its meaning from Larousse. "The definition of the word sabotage as look as home, he couldn't get the "cirused among French printers designates the dishonest act of a compositor who deliberately introdnees errors into the text entrusted to him or otherwise deterioates its value." In a supplement formance, largely, 1 guess, because the to Laronsse the term is found defined as "the dis- sents fell down and almost broke up honest act of workmen who deliberately introduce poor work into that on which they are engaged," The new Standard Dictionary defines the word sabotage: First, the act of entting shoes or sockets in rails on railroad ties; second, the act of tieing up a railroad by malicious damage; third, any another ste fire; one was a clown; my poor work or other damage done by dissatisfied workmen, also the act of producing it; plant wrecking. It would seem therefore that the meaning of the word sabotage is any mean; under-handed action of workingmen for the purpose of destroying the machinery of production which they had a more blood-cardling pane. We are manipulating; and this is neged by the Industrial Workers of the World as a means of bring- and brought us lets of business. ing the employing class to time. "AL" RINGLING-FAMOUS CIRCUS MAN.

In the "Interesting People" depail ent of the Felemary American Maga ine appears an account of "Al" Ring and his brothers are the greatest powers in the circus world today. When from home and started to give a show in aeighboring towas. They now own other of the most important shows. I the article Mr. Ringling is quoted

" I've always been in the cicens business, he said. 'As a schoolhoy tan away from home with one or two o' my brothers and started to give a blackface show in neighboring towns. We were hardly started when my father arrived on the scene, the second or third day, and took us home-using a cor bigation of sheer force and persuasion of another kind. But even though he ens" out of our systems, and in 1882 we started out in earnest.

" Our first performance was in the juit yard he Baraboo. There are lots the show. Of course, it was only a snull venture and had little to recommead it save the enthusiasm of the

"Oh, yest '-he naticipated my ques ion-'wo all performed in those days all five of us. One of us was the ringmaster; another walked the tight rope own act was juggling and rolling bi enmon balls up and down inv arms and around my neck. Some say that's why

I'm a little stooped today.'
"Did you leave any animals then, nay menagerie? Only three or four horses, a monkey, and a hyena-dut this last

called him a "grave-robbing man-ent-

As such he was a great success

"This was in our "wagau-show days," he continueds 'We traveled by a railroad show. In those times one venr was about like another, but when we got onto the milroads we began to

"I remarked that Mr. Ringling must have seen many changes take place in lie circus luisiness "Yes, indeed! he replied. 'And

when I think of the phoacees whose mones headed the "greatest shows on earth" I began to feel like an old man nlthough I'm only sixty-four ' A remipiscent look came into the kindly eyes which look out from beneath black bushy eveltrows of marked contrast to the circus man's silver-gray and closecropped hair. 'Barnum, of course, has been dead a good many years. His partner and successor, Bailey, is also lead, and we boys own the Baruum & Bailey show. The Forepaugh brothers are gone; so are the Sells brothers. Their combined shows belong to me individually There was a time when we controlled the Buffielo Itill Wild West. Come to think of it, I'm pretty near the veterne showmen to-day, although I've got four younger brothers associated with me in the business."

When n man sees a view depleting a treet scene of about 1850, he always wonders what happened to the hoop skirt when they hit a windy corner.

REVENUE CUTTERS FOR THE OHIO RIVER,

Washington,-Assistant Secretary of the Treasury Byron T. Newton, who is strongly advocating an appropriation for one or more revenue cutters to ply the Ohio, and to use in enforcing the murine laws, as well as in relief work during periods of high water, says he is much eucouraged as a result of the friendly disposition toward the approprintion shown by members of Congress Secretary Newton insists that he will centinue to push this item in the up propriation bill as long us there is a chance to secure ils adoption.

WEST UNION C. G. &. P. **EXTENSION CERTAIN**

Advisors of Road Have Endorsed Plan and First Steps Are To Be Taken at Once.

President Henry Haigh was In Georgetown, for a few hours Wednes-day afternoon. He had come almost direct from Detroit, where he has been ill. Upon advice of his physician hi went on to West Baden Springs for a few weeks. As soon as he has recuperued he expects to come back and take up the re-arrangement of the C. G. & l'., such as appointing a general man-ager and other matters of importance. Mr. Haigh confirmed the report that the C. G. & P. would build to West Union during the summer. He has been watching this territory, as have other well known railroad men, and they have advised that this was the best railroad extension prospect in this portion of Ohlo. For this reason he has decided to extend the line, but under just what terms he has not yet decided.

Charges were made in the investiga-on of United States Circuit Judge Speer, of Georgia, that his court was held outside of his district and that he had selected jurors lu criminal cases.

Five persons were hurt and twenty or more arrested in a riot when militlamen atopped a mob of strlkers attemptlng to march to a hospital where "Mother" Jones is held under arrest.

FOUND AFTER TWO YEARS

Needle That Penetrated Poot Just Removed.

Georgetown .- A needle that penetrat Illinois, who is ill in Washington, was ed the foot of Ciara W. Christopher two years ago and could not then be located by physicians has just been removed. Tuesday the girl felt a sharp pain in her heel and a physicinn was called, lie soon determined the cause and quickly removed the cause of irritation by extracting the long-lost needle.

WISHED SHE **COULD DIE**

And Be Free From Her Troubles, but Finds Better Way.

Columbia, Tenn.—"Many a time," says Mrs. Jessie Sharp, of this place, "I wished I would die and be relieved of my suffering, from womanly troubles. I could not get up, without pulling at something to help me, and stayed in bed most of the time. I could not do my

The least amount of work tired me out. My head would swim, and I would tremble for an hour or more. Finally, I took Cardul, the woman's tonic, and I am not bolhered with pains any more, and I don't have to go to bed. In fact, I am sound and well of all my troubles."

Cardul goes to all the weak spots and helps to make them strong. It acts with nature—not against her. It is for the tired, nervous, irritable women, who leet as it everything were wrong, and need something to quiet their nerves and strengthen the worn-out system.

If you are a woman, suffering from any of the numerous symptoms of womanly trouble, take Cardul. It will help you At all druggists.

At fourteen he was officer under the grade of rear admirai. appointed to Annapolis, and in due course was escorted thither by an of the torpedo station at Newport, and father's house, waited for the dally older brother, who when called upon in regard to torpedo boats and subma- performance, and when it had ended to put the youngster's name down on the roster of hoys eatering the Naval academy, wroto "Frank Friday Fletch-

This did not particularly please the family, because Friday was not really a part of his name. But naturally under the circumstances it stuck. He was enlled Friday ail through the five years he spent at the academyhe dropped back one class, being rather young to keep up-and ever since that time his fellow officera in the servce have known him as Friday Fletch er and nothing else.

Young Fictcher was graduated from Annapolls oa June 21, 1875, and soon afterward was assigned to duty on board the United States steamer Tuscarora, which was engaged in surveying a auhmarine route for a projected cable to connect Callfornia with Japan. This, by tho way, was a very interestlag job.

It lavolved an exploration of the oceau depths, almost the first ever made, and specimens of the materials composing the sen floor were brought up from the bottom all the way across the Pacific. Just east of Japan the Tuscarora discovered the deepest hole that exists anywhere in the world, a marine ahyss, known to this day as the Tuscarora Deep, the soundings failing to touch hottom at five and a quarter mlies below the waves.

Although accident first directed rines he is considered an expert. Note young Fletcher's attention to scientific worthy Improvements in fleet tactics matters, incidentally to his profession- have been suggested by him. But his al duties, he soon showed a special most remarkable inventive ideas have tree, owned by li. A. Woodworth, has aptitude for such pursults. He has an been developed in connection with been insured for \$30,000 by Lloyds of investigative turn of miad, and if he naval ordnance. had not happeaed to become a naval officer it is altogether likely that he would have been an inventor.

Indeed, some of the most valuable mechanical contrivances used in the navy, especially in coanection with guns, were originated by him. Among these are improvements in telescopic sights; the well-known Fletcher breech closing mechanism, and a fric

tlonless gun mount for quick fire rifles. Another very remarkable cruise, in 1879-1881, took the young officer to Korea, on the steam sloop Ticonderoga, then a formidable warship Commanded by Commodoro R. W. Shufeldt, she was sent around the world la obedienco to a special order of congreas, and in behalf of the department of state, to make what was called a commercial and diplomatic eruise. The most important object of the expedition was to open negotiations with the government of Korea for a treaty which would insure the protection of the lives and property of Amer-

It was also desired to open Korea to American commerce, and Japaa, helng at that time on very cordial terms with the United States, had signified her willingness to lend assistaneo toward this end. But when the Ticonderoga entered the harhor of Fusan, May 14, 1880, the officials refused to accept the letter handed to them by Commodore Shufeldt, on the ground that It was addressed to the king of Korea, whereas their monarch was properly designated as the king of Chro-Sen-which, helug translated, means "Land of the Morning Calm."

the aaval academy, however, he at tracted no special attention, being quiet, shy and studious. Modesty has always heen a conspicuous attribute of his, but when something important is to be done he is the readiest man in the world.

Fletcher and efficiency are simost synonymous. Even his mechanical in ventions are suggestive of the same quality. The Fletcher breech closing mechanism shuts the breech of s rapid-fire gun in the quickest imaginablo time and with the fewest possible motions. The gun mount already arencones on a roller path by which fric. oncc. and the Tieoaderogn returned to the target.

LESSON FOR JANUARY 25

SERVING JESUS.

LESSON TENT-Luke 8:t-3, 9:57-62; GOLDEN TEXT-"Insamuch as ye did mio one of these my brethren, even least, ye did it unto me."-Matt.

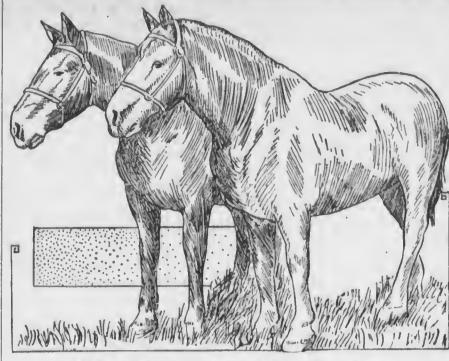

The first section of our lesson text has no connection with the other two. on all these subjects. Address all inquiries to William A. Radford, No. 178 West Jackson boulevard, Chicago, Iil., and only enclose two-cent stamp for reply. cieanliness inside, as though it had a white lining. Some people prefer a ministry and was undoubtedly chosen as an indication of the company who traveled with Jesus and his disciples, traveled with Jesus and his disciples, and who provided for his needs. We must remember that Jesus was not supported by a board, a church, nor by some philanthropically inclined feliew citizen. It is to the second two sections therefore that we devote our chlef attention.

Different Classes. I. These who would follow Jesus, 9:57-62. Read earefully Matt. 8:19-22. sented: (1) The impuisive follower and "pick up something a little soro (v. 57, 58). This is the man who is but just as good for work as a firstmoved by a sudden desire to accom- ciass animal." in this ho is mistaken pany this marveious Teacher, but like as he will soon lind out. the man in the parable, does not sit down and count the cost ein he starts to build his house. This thought is emphasized when wo read (Matt. 8:19) that this man was a scribe, one who would not be expected to make such a resolve. He must have been deeply stirred by what he had seen and heard in the life of Jesus. Such a resolve te him that he did not realize what in 90 cases out of 100. was involved in his promise (v. 58). quarters, and to receive the same serviceably sound, much less actually treatment he received, 2 Tim, 3:12. it sound. is a mistake to tell foil: that the road of righteousness is a primrose path. Stables cannot be kapt clean, the daily, legitimate demands of duty from a hygienic standpoint, without to interfere with a life of full, free, fal due regard for the rules of sanitation In all of its various aspects.

PROFIT IN RAISING HIGH GRADE SEEDS

Sweet Corn, Garden Peas and Beans of Good Quality.

A letter sent from the U.S. department of ngricuiture, division of publications will be of considerable interest to those who follow in any degree the raising of high grade seed Concerning sweet corn, garden peas

and beans it states there is much profit in the raising of high grade sleughs (province "slews") with soft

illy needed yearly has become so for building barns and hen-houses. large that the seedman is obliged to Wild grasses are plentiful, while tame have the major portion of his stock grasses, such as thuothy, brome and

"Within the past few years thero quantity of seeds produced for commerciai purposes.

"This has been due, in a large measure, to the development of seed growing and its handling as a busi-

ness in the I'nited States. "One of the largest of these bushnesses uses buildings with an aggregnie licor space of more than 16 acres. This space is much larger than was occupied by the entire seed trade of the country only 50 years ago.

"The quality also has vastiy improved. One of the most encouraging developments in the growing of gar- | ECZEMA IN WATER BLISTERS den vegetables is the increasing recognition of the practical importance of using pure and uniform stocks of eczema broke out like little water adapt them to distinct local conditions

without any radical change in farm practice or material increase in farm the ankle and above the kuee. quipment.

"These conditions make the industry well worth the attention of furmers who are located where soil and cilmatic conditions are favorable for he best development of such seeds. llowever, the raising of these veg-

clables for seed crops is not recommended for all circumstances, even hea soil and climate are sultable. "The farmer who contemplates unwell to consider thoroughly the many ciements which enter into profits.

"Seedmen are often able to place contracts for growing seed at very low prices-even lower than that nt which ndvised for parts of western Kansas grain of the species can be soid on the market.

"Such a condition might be due to The general tendency now, however,

is decidedly in the other direction, and

Deniers should not buy by sample, also, in a rotation scheme for west- was subject, white growing to his own Knowledge, experience and care on

> Bespeaks Good Care. The coit tirat keeps its baby-fat the first year tells of good care, skillful feeding and fine growth.

ALBERTA CROP YIELDS

At MacLeod, Aita., weather conditions were excellent all through the season. Ninety per cent. of the wheat up to Oct. 1st graded No. 1, the only No. 2 being fall wheat. The yield ranged from 20 to 40 bushels per acre, with an averago of 28. Oats yielded weil, and barley about 60 bushels.

Inverary is a new district in Alberta. Here wheat graded No. 2 and some of it went 50 busnels to the acre, oats going about 75 bushels.

Lethbridge correspondent says: "In the Monarch district the yield on summer fallow is averaging thirty-fivo bushcis, a iargo percentage No. 1 orthern.

"Aii spring grains are yielding better than expected in the Milk river district, south. A 300 acre field of Marquis wheat gave 4114 bushels. "Experimental farm results on grain sown on irrigated land place 'Red Fife'

wheat in the banner position, with a yield of 59.40 bushels per aere. Oats yielded 132 bushels to the acro. "John Turner of Lethbridge grew bariey that went 60 bushels to the

"Red Fife averages in weight from 60 to 68 pounds, and at Rosthern the Marquis wheat will run as high as 64 pounds to the bushel, while a sample of Marquis wheat at Arcoia weighed

This variety is grading No. 1 hard." Calgary, Aita., Oct. 8 .- The problem of handling Aiberta's big grain may do fairly good work on soft, erop is becoming a serious one, and plowed ground but when it comes to there is a congestion at many points using them on the road for any pur- in southern Aiberta. One thousand ears could be used immediately. The farmers have some hanting on the C. P. R. prepared for a normal year, while the yield of grain was everywhere ahnormal, with an Increased

> acreage of about 23 per eent. Mooso Jaw, Sask., returns show semo remarkable yields. Hassano, Aita., Sept. 25, '13,-Individuni record crops grown in Alherta include 1,300 acre field of spring wheat grown near Hassano which went thir-

> ty-five bushels to the nere and weighed sixty-six pounds to the bushel. Noble, Aita., Oct. 1, '13.-Aii records for the largest shipment of grain by one farmer will he broken this year if the estimate of C. S. Nobie of Nobie, Alberta, proves correct. Mr. Noble has notified the Canadian Pacific Railway hero that he will have 350,000 bushels of grain, chickly bariey and oats, ready for shipment very short-

> L. Anderson Smith, writing to a friend in the Old Country, located at Killam, Alberta, Says:

"Anyone taking up land will find Aibertn an ideal province. The soil is a rich black ioam, varying from 6 to 12 Inches In depth. The land here in this district is not wholly open prairie. At intervals, sometimes closely, sometimes widely senttered, there are small plots of poplar and willows. These generally grow round some smail depression in the land, and the snow drifts here in the winter and melts in the spring filling these water. Nearly all these sloughs havo water. The poplars are very useful western rye grass do remarkably well.

SUNDAY SCHOOL LESSON.

The Sphere of Women. (Luke 8:1-3; 0:57-62; 10:38-42.) Luke alone brings some of these things to our attention. He finds a place in his Gospel of Christ to tell what women did. He was not a suffragist, yet he might have been one had there been suffragettes presenting their cause to him. Doubtless some women think they are doing a great service to humanity when they press the claims of their sisters for a vote. And maybe our Mason County suffra. BECAUSE: gettes think their task is so great they are excused from doing any very ac tive work in the church Itself. Woman have done so much and are doing so much in maintaining the church that even a suggestion of their not doing so seems out of place. To prove this step into any church in Maysville next

Sunday and see which numbers the most

driving at in this paragraph is that

ligious or Christians have so many other

time for the church Itself.

-men or women. But what we are

Brosee

portralt. This means a study

loanna and Susanna, and many others, lesus was training his disciples for their work. They gave of their subdance. Oh, they could have said: "Let he men do this. It is their work, te.," and then have given themselves society or other claims. Of course, is men's work to pay bills, but that ever relieves the women of their share f the support. God bless the Ladies

Aid Societies and the Doreas Societies for the support they have given the uych in the past. There are several ve societies in this county but all of them could find work for the other women who do not now come. Do not think you are above such service. Johnna found time for and pleasure in the service she rendered. These women considered the support of Christ and Everyone is invited to hear this gifted his cause of the greatest importance and when we come to view it that way, the church will not go limping along for book of support in a city like Maysville where there are society women enough to support a Charity Ball or receptions which cost both those who ee and those who give it more than these same women give for the cruse at thrist for a whole year, Some things may be alright in themselves, last when these things make the church take a cound place they are wrong.

The last section of the lesson conrasis Murtha's and Mary's attitude to vard Christ. It is not only service of the hands and pocker look Jesus asks of women but service of the head and eart also.

What a power woman has been in the ist, is now and always will be! But, ve can searcely realize what wonderful regress towards righteonsness this old vorld would have made had there leen more Marys, who in devotion, sat at the feet of Jesus to learn Ilis spirit and His will. In any church in this county you will find five Marthas to one Mary The extra cooking, the extra housework and the extras demanded by society will not be remembered long by those for whom it is done or by whom it is dane, but the spirit of worship received by doing Mary's part will continue in

ts influence forever. May the time come when Mason Coin their view of Christ and His church,

We Are Now Ready to Give You Our Service!

To us service means this: To sell only the best merchandise to be had; to give what you want when you want it; to gladly refund your money if we fail to satisfy you. Try a Hart, Schaffner & Marx Suit and Overcoat for the price you usually pay for the inferior kind. Our stock of Shoes, Hats, Shirts and all the little accessories are selected with great care, Come in and test us out;
